

Favor TechConsulting, LLC (FTC) is in search of Senior Web Developers. A Senior Web Developer has experience in building a website from start to finish and supports website production and maintenance for the Department of Veterans Affairs (VA).

Essential Job Functions & Responsibilities

- Create the look, layout, and features of the VA site
- Work with development teams or managers to maintain the website and make additions as needed to keep the website up-to-date
- Develop user interaction and Information Architecture (IA) deliverables, including:
 1. Site maps
 2. User scenarios
 3. Wire-frames
 4. Mental models
 5. Personas
 6. Interaction specifications
 7. Prototypes
- Plan site design by clarifying goals and designing functionality
- Maintain site appearance by developing and enforcing content and display standards as well as editing submissions
- Provide information by collecting, analyzing, and summarizing data and trends

Required Minimum Qualification

- Bachelor's Degree in Web Design, Multimedia, Interactive Media, or related field
- 3+ years of experience as an information architect, interaction graphic designer, or user experience professional (or similar role)
- Familiarity and experience with 508 Compliance
- Experience in conducting user research activities to inform user-centered insights for final deliverables, including user interviews, observation, ideation sessions, contextual inquiry, and usability studies

In addition, U.S Citizenship is required. Applicants selected will be subject to a government security investigation and must meet eligibility requirements for access to classified information and be able to obtain a government-granted security clearance. Individuals may also be subject to a background investigation including, but not limited to criminal history, employment and education verification, drug testing, and creditworthiness.

Favor TechConsulting is an Equal Opportunity Employer. Qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, national origin, marital status, disability, veteran status, sexual orientation, or genetic information.
